

BAHAMAS PUBLIC FORECAST

THIS IS A PUBLIC FORECAST FOR TONIGHT AND TOMORROW THURSDAY 18TH APRIL 2024 ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 6PM

GENERAL SITUATION: A high pressure system along with gentle to moderate breeze will cover the Bahamas through tomorrow.

WARNINGS: Beach goers and small craft operators should be vigilant due to moderate risk of rip currents and a moderate to large surf, along Atlantic exposed beaches. Due to persistent arid and warm conditions, the threat of brushfire development remains elevated.

Northwest Bahamas

WEATHER: Fair and mild tonight, becoming partly to mostly sunny and hot tomorrow

ADVISORY: Small craft should exercise caution in sea swells

WINDS: East to southeast at 10 knots or less, falling light and variable at times

SEAS: 1 to 3 feet near shore, building 4 to 6 feet in easterly swells over open waters

Central and Southeast Bahamas

WEATHER: Fair and mild tonight, becoming partly to mostly sunny and hot with an isolated shower tomorrow

ADVISORY: Small craft advisory continue in sea swells

WINDS: Northeast to east at 10 to 15 knots in the central Bahamas, increasing to 15 knots in the Southeast Bahamas

SEAS: 2 to 4 feet in the Central Islands building 3 to 5 feet in the Southeast Bahamas, seas building 5-7 feet in northeast and east sea swells
