

BAHMET 23/7B

## BAHAMAS MARINE FORECAST

**MARINE FORECASTS FOR THE BAHAMAS ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 12:00 P.M. EST SATURDAY, FEBRUARY 07TH, 2026, FOR THE NEXT 24 HOURS. THE NEXT SCHEDULED FORECASTS WILL BE ISSUED AT 6:00 P.M. EST.**

A **Near Gale (28-33 knots) Warning** is in effect for the **Northern, Northwest and Central Bahamas**. Occasional gusts to near gale force are possible across the mentioned area waters **through 6 pm Saturday**. ***Boaters across ALL areas, especially small craft operators, are urged to remain in port until further notice.***

### WARNINGS:

**Rough Surf and Elevated Seas:** A large swell event is impacting the Atlantic waters. Rough surf and elevated seas will plague the Atlantic waters and exposures of the entire island chain through Wednesday before slowly beginning to subside beginning in the Northern Islands.

**Rip Currents:** A **high risk** of **dangerous, life-threatening rip currents** exists along all exposed shorelines of the island chain. ***Beachgoers and swimmers should avoid entering the water in these areas.***

### GENERAL SITUATION:

A reinforcing cold front will drift southeastward across the island chain today, reaching the Central and Southeastern Bahamas tonight before gradually dissipating. In its wake, high pressure building over the southeastern U.S. will extend across the area, promoting a cooler, drier, and more stable airmass over local waters. Moderate to occasionally fresh breezes will persist behind the boundary, particularly across Atlantic exposures and open passages, maintaining rough sea conditions through the weekend. A gradual improvement in marine conditions is expected toward the end of the week as the ridge shifts eastward into the Atlantic and the pressure gradient relaxes.

### NORTHERN BAHAMAS

(INCLUDING GRAND BAHAMA, ABACO, BIMINI & ADJACENT WATERS):

#### ADVISORY:

***NEAR GALE (28-33 knots) WARNING*** in effect for the Gulf Stream and across all areas. ***Small craft operators are urged to remain in port.***

#### WINDS:

Northwest at 15 to 25 knots with gusts to near gale force likely, becoming north to northeast at 15 to 20 knots with higher gusts by nightfall.

#### LOCAL SEAS:

4 to 6 feet nearshore waters, 6 to 8 feet offshore sheltered waters, and 8 to 12 feet up to 15 feet in Atlantic-exposed waters.

#### GULF STREAM:

Seas 6 to 8 feet, occasionally to 10 feet; seas 5 to 8 feet, occasionally to 10 feet tonight.

#### SWELLS:

Moderate to large northwest to northerly swells over the Gulf Stream and Atlantic-exposed waters.

#### WEATHER:

Less than 10% chance of showers.

### NORTHWEST BAHAMAS

(INCLUDING NEW PROVIDENCE, ANDROS, THE BERRY ISLANDS, ELEUTHERA & ADJACENT WATERS):

#### ADVISORY:

***NEAR GALE (28-33 knots) WARNING*** in effect across all areas. ***Small craft operators are urged to remain in port.***

#### WINDS:

Northwest at 15 to 25 knots with gusts to near gale force likely, becoming north to northeast at 15 to 20 knots with higher gusts by nightfall.

BAHMET 23/7B
