

## BAHAMAS PUBLIC FORECAST

BAHAMAS PUBLIC FORECAST FOR THIS AFTERNOON AND TONIGHT AND THE NEXT SIX (6) DAYS, ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 12:00 P.M. EDT, FRIDAY, JULY 10, 2026. THE NEXT SCHEDULED FORECAST WILL BE ISSUED AT 6:00 P.M. EDT.

**WARNING IN EFFECT:**

***A Heat Advisory remains in effect for the Northern and Northwest Bahamas.*** Residents and visitors are advised to remain hydrated, wear protective clothing, seek shaded areas and avoid prolonged sun exposure during peak sunshine hours. (11am to 4pm).

***A Dust Advisory remains in effect for all islands of the Bahamas, as well as the Turks & Caicos Islands. Residents, especially those with respiratory conditions, should take the necessary precautions to safeguard their health.***

***A Near Gale Warning (28-33 knots) remains in effect for the Central and Southeast Bahamas. Boaters, especially small craft operators, are advised to seek safe harbour and remain in port. For additional marine information, please view our Marine Forecast on our website, met.gov.bs.***

**GENERAL SITUATION:**

An upper level low along with a mid-level trough is producing unsettled weather across the Central and Southeast Bahamas. A moderate to heavy plume of Saharan dust is maintaining hazy skies and suppressing the severity of these showers and thunderstorms while light showers propagate elsewhere. Meanwhile, a strong ridge of high pressure is supporting moderate to strong winds and slight to moderate seas throughout the country.

***Outlook:*** A strong high-pressure ridge will rebuild across the archipelago this weekend and into early next week, bringing breezy, hot, and generally stable weather conditions. Lingering Saharan dust will maintain hazy skies and help suppress deep convection, limiting shower and thunderstorm development.

**SPECIAL WEATHER NOTES:**

***Rip Currents:*** Swimmers and beachgoers ***in the Central and Southeast Bahamas*** should ***avoid*** entering waters, due to the ***high risk*** of rip currents and rough surf. Meanwhile a ***moderate*** risk is in effect for waters in the Northwest and Central Bahamas. ***Beachgoers are urged to exercise caution when entering the water.***

***Coastal Hazards:*** Motorists and pedestrians across the ***Central and Southeast Bahamas*** are advised to exercise caution while traversing ***eastern and southern*** coastal roads and shorelines due to possible overtopping waves and sea spray, especially during the high tide cycle.

**NORTHERN BAHAMAS**  
(INCLUDING GRAND BAHAMA, ABACO, BIMINI & ADJACENT WATERS):

<b>SKY CONDITIONS:</b>	Partly sunny and hazy today, fair tonight.		
<b>PRECIPITATION:</b>	10% chance of isolated showers.
