

BAHAMAS PUBLIC FORECAST

BAHAMAS PUBLIC FORECAST FOR THIS AFTERNOON AND TONIGHT AND THE NEXT SIX (6) DAYS, ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 12:00 P.M. EDT, MONDAY, JUNE 8, 2026. THE NEXT SCHEDULED FORECAST WILL BE ISSUED AT 6:00 P.M. EDT.

WARNING IN EFFECT: *There are no public warnings in effect at this time. For additional marine information, please view our Marine Forecast on our website, met.gov.bs.*

Trouching and its associated moisture near the Central Bahamas coupled with the northern extent of a tropical wave located in the Caribbean sea will keep shower and possible thunderstorm activity in the forecast for the southern half of the country. Meanwhile, a weak pressure pattern and drier conditions will continue over the Northern and Northwest Bahamas with diurnal isolated showers possible.

GENERAL SITUATION: *Outlook:* Lingering troughing and tropical moisture across the Southeast Bahamas through late Tuesday into Wednesday, keeping shower and possible thunderstorm chances in the forecast across that area. Ridging and drier airmass will build across the area with some passing showers still likely. However, by the weekend, a mid- to upper-level disturbance is anticipated to move into the area, possibly enhancing shower and thunderstorm activity across portions of the Northwest and Central Bahamas through early next week.

Severe Weather Potential: There is a *slight* risk of the development of strong to severe thunderstorms over portions of the **Southeast Bahamas** this afternoon. *The public is urged to remain updated on all severe weather warnings issued by the Bahamas Department of Meteorology.*

SPECIAL WEATHER NOTES: **UV Index:** The public is advised to remain well-hydrated and exercise caution while outdoors during *peak sunshine hours (11am-3pm) today* across the **Northern and Northwest Bahamas** as UV indices are expected to be in the **very high** range.

Rip Currents: There is a *slight to moderate* risk of rip currents affecting ALL Atlantic exposures. *Beachgoers and swimmers are urged to exercise caution.*

NORTHERN BAHAMAS (INCLUDING GRAND BAHAMA, ABACO, BIMINI & ADJACENT WATERS):

SKY CONDITIONS:	Partly sunny this afternoon becoming partly cloudy tonight.
