

BAHAMAS PUBLIC FORECAST

BAHAMAS PUBLIC FORECAST FOR THIS AFTERNOON AND TONIGHT AND THE NEXT SIX (6) DAYS, ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 12:00 P.M. EST, WEDNESDAY, NOVEMBER 26, 2025. THE NEXT SCHEDULED FORECAST WILL BE ISSUED AT 6:00 P.M. EST.

WARNING IN EFFECT:	<i>A Gale watch (34-40 knots) will come into effect for the Northern Bahamas at 6am Friday, and the Northwest Bahamas at 12 noon on Friday.</i>
GENERAL SITUATION:	Persistent high pressure across the area will continue to support mostly stable conditions with moderate to occasionally fresh breezes today as it pulls away from the area through tonight. Meanwhile, moisture associated with a weak low level disturbance will move through the southern islands bringing a few showers to that area. Outlook: A strong cold front expected to move into the Northern Bahamas late Thursday into Friday with showers and possible thunderstorms along and ahead of the front. Breezes will freshen behind the front and will continue into the weekend courtesy of building high pressure behind the front.
SPECIAL WEATHER NOTES:	There is a MODERATE risk of rip currents for the Central and Southeast Bahamas; therefore, <i>beachgoers and swimmers should exercise caution</i> when entering north and east-facing coastal waters.

NORTHERN BAHAMAS (INCLUDING GRAND BAHAMA, ABACO, BIMINI & ADJACENT WATERS):			
SKY CONDITIONS:	Partly sunny this afternoon becoming fair tonight.		
PRECIPITATION:	10% chance of a spotty shower or two.
