

# BAHAMAS PUBLIC FORECAST

**BAHAMAS PUBLIC FORECAST FOR THIS AFTERNOON AND TONIGHT AND THE NEXT SIX (6) DAYS, ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 12:00 P.M. EDT, WEDNESDAY, JUNE 10, 2026. THE NEXT SCHEDULED FORECAST WILL BE ISSUED AT 6:00 P.M. EDT.**

**WARNING IN EFFECT:** *There are no public warnings in effect at this time. For additional marine information, please view our Marine Forecast on our website, [met.gov.bs](http://met.gov.bs)*

A stable air mass supported by a broad high pressure system is across the Bahamas. Pleasant weather conditions with a few quick passing showers, light to moderate winds, slight seas and hot temperatures are occurring throughout the country.

**GENERAL SITUATION:**

**Outlook:** No significant changes are expected in the forecast through the remainder of the work week as high pressure continues to dominate the weather pattern. Expect hot temperatures, gentle breezes, and generally stable conditions, which will help limit shower activity across the islands. By Saturday, shower and thunderstorm chances are expected to increase across the southern islands as a trough and its associated moisture move northward into the area. This pattern will support increased shower and thunderstorm activity across portions of the Southeastern islands throughout the weekend.

**UV Index:** The public is advised to remain well-hydrated and exercise caution while outdoors during *peak sunshine hours (11am-4pm)* across the *All Areas of the Bahamas* as UV indices are expected to be in the *very high to extreme* range.

**SPECIAL WEATHER NOTES:**

**Saharan Dust:** Due to the presence of Saharan Dust across the Southeastern islands, air quality will be reduced to moderate levels therefore, those sensitive to allergens or dust particles should take the necessary precautions.

**NORTHERN BAHAMAS**  
(INCLUDING GRAND BAHAMA, ABACO, BIMINI & ADJACENT WATERS):

|                        |                                                                                                                               |                           |                           |
