

BAHMET 24/10A

BAHAMAS PUBLIC FORECAST

FORECASTS FOR THE BAHAMAS, ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 6:00 A.M. EDT, Saturday, December 21, 2024, FOR TODAY, TONIGHT AND THE NEXT SIX (6) DAYS. THE NEXT SCHEDULED FORECAST WILL BE ISSUED AT 12:00 P.M. EDT.

WARNING IN EFFECT:	<i>A small craft caution is in effect due to elevated seas.</i>
GENERAL SITUATION:	A reinforcing cold front across the Northwest Bahamas will race southeastwards to merge with an old frontal boundary in vicinity of the Southeast Bahamas by this evening. High pressure will build behind the front and promote a drier and cooler air-mass over the islands this weekend. Outlook: Strong high pressure will build to the north, strengthening the pressure gradient across the islands. This will support fresh to locally strong breezes and rough seas from Sunday night through mid-week.
SPECIAL WEATHER NOTES:	<i>There remains an elevated risk of rip currents especially along northern and eastern shorelines throughout the island chain.</i>
