

BAHMET 24/10C

BAHAMAS PUBLIC FORECAST

BAHAMAS PUBLIC FORECAST FOR TONIGHT, TOMORROW AND THE NEXT SIX (6) DAYS, ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 6:00 P.M. EDT, Friday, May 16, 2025. THE NEXT SCHEDULED FORECAST WILL BE ISSUED AT 6:00 A.M. EDT TOMORROW.

WARNING IN EFFECT:	<i>There are currently no public warnings in effect at this time. Please see our marine forecast on our website, met.gov.bs.</i>
GENERAL SITUATION:	<p>The country remains on the western flank of a broad Central Atlantic High which is supporting gentle to moderate breezes and stable weather conditions.</p> <p>Outlook: Strong riding aloft combined with a dry air mass will persist through the weekend and into the week ahead suppressing any significant convective or shower activity. However, ample low-level moisture combined with strong daytime heating may support a few light rogue showers in some spots throughout the forecast period. A weak late season cold front may bring some isolated showers to the Northern Islands by early Thursday. Humid conditions and light winds will keep heat indices in the 90's throughout the period.</p>
SPECIAL WEATHER NOTES:	Due to high UV indices expected tomorrow as well as heat indices likely in the low to mid 90's, residents and visitors are urged to wear protective clothing and sunscreen, and to take frequent breaks and stay hydrated while outdoors.

NORTHERN BAHAMAS (INCLUDING GRAND BAHAMA, ABACO, BIMINI & ADJACENT WATERS):			
SKY CONDITIONS:	Fair tonight, becoming partly to mostly sunny tomorrow.
