

## BAHAMAS PUBLIC FORECAST

**BAHAMAS PUBLIC FORECAST FOR TONIGHT, TOMORROW AND THE NEXT SIX (6) DAYS, ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 6:00 P.M. EST, Sunday, March 1, 2026. THE NEXT SCHEDULED FORECAST WILL BE ISSUED AT 6:00 A.M. EST TOMORROW.**

<b>WARNING IN EFFECT:</b>	<b>A <i>Severe Weather Watch</i> is now in effect for the Northern Bahamas until 8pm. For additional marine information, please view our Marine forecast on our webpage, <a href="http://met.gov.bs">met.gov.bs</a>.</b>
<b>GENERAL SITUATION:</b>	<p>Scattered showers and isolated thunderstorms are occurring throughout the archipelago. This is due to a cold front drifting across the Northwest Bahamas tonight and expected to enter and weaken across the Central Bahamas tomorrow. Meanwhile the pre-frontal trough across the Central Bahamas will linger across the Southeastern Islands tomorrow.</p> <p><b>Outlook:</b> The frontal boundary is projected to reach the Central Bahamas by early Monday where it will stall before gradually weakening. By mid-week, high pressure will build across the islands, producing moderate to strong winds along with rough seas. Moisture associated with a low-pressure system expected to develop near Hispaniola will likely influence evening showers over the southeastern islands.</p>
<b>SPECIAL WEATHER NOTES:</b>	<b>Rip Currents:</b> There is a <b>slight to moderate risk</b> of rip currents for the Atlantic coastal waters for all areas. <i>Swimmers are advised to exercise caution when entering these waters.</i>

NORTHERN BAHAMAS (INCLUDING GRAND BAHAMA, ABACO, BIMINI & ADJACENT WATERS):			
<b>SKY CONDITIONS:</b>	Fair to partly cloudy tonight, becoming partly sunny tomorrow.		
<b>PRECIPITATION:</b>	20 to 30% chance of isolated showers and thunderstorms tonight, becoming 10 to 20% chance of isolated showers tomorrow.
