

BAHAMAS PUBLIC FORECAST

BAHAMAS PUBLIC FORECAST FOR TONIGHT, TOMORROW AND THE NEXT SIX (6) DAYS, ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 6:00 P.M. EDT, Sunday, April 26, 2026. THE NEXT SCHEDULED FORECAST WILL BE ISSUED AT 6:00 A.M. EDT TOMORROW.

WARNING IN EFFECT:	<i>There are no public warnings in effect at this time. For additional marine information, please view our Marine Forecast on our website, met.gov.bs.</i>
GENERAL SITUATION:	<p>Weak high pressure ridging remains across the area producing light to gentle breezes. Meanwhile, a lingering trough near the Southern islands will continue to produce some showers while dissipating through tomorrow.</p> <p>Outlook: A weak frontal boundary will linger just north of the islands early Monday, move across the northern islands by the afternoon, and exit by midweek with little impact. High pressure will dominate the rest of the islands, bringing mostly stable, pleasant weather with warm temperatures and gentle breezes. A few isolated showers remain possible due to lingering moisture. Another late-season cold front may approach from Florida by the end of the week, with a chance of showers and thunderstorms beginning early Friday.</p>
SPECIAL WEATHER NOTES:	UV Index: The public is advised to exercise caution during peak sunshine hours (11am – 3pm) Monday as UV indices are expected in the high to very high range.
