

BAHAMAS PUBLIC FORECAST

BAHAMAS PUBLIC FORECAST FOR TONIGHT, TOMORROW AND THE NEXT SIX (6) DAYS, ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 6:00 P.M. EDT, Saturday, May 10, 2025. THE NEXT SCHEDULED FORECAST WILL BE ISSUED AT 6:00 A.M. EDT TOMORROW.

WARNING IN EFFECT:	<i>There are currently no public warnings in effect at this time. Please see the Marine Forecast on our website at met.gov.bs.</i>
GENERAL SITUATION:	High pressure ridging will continue to support moderate winds across The Bahamas tonight into tomorrow. Meanwhile, a complex low in the Gulf of Mexico continues to move eastward gradually increasing moisture, cloudy skies and instability over the northern islands of The Bahamas to start the work week.
SPECIAL WEATHER NOTES:	Beachgoers and swimmers should continue to exercise caution as rip current risks will increase along eastern and Atlantic exposed beaches. On Sunday, residents and visitors are advised to remain well hydrated and to wear protective clothing along with sunscreen during extended periods outdoors (especially between 10am and 4pm) as UV indices are expected in the very high range and heat indices will be in the low to mid 90's.

NORTHERN BAHAMAS (INCLUDING GRAND BAHAMA, ABACO, BIMINI & ADJACENT WATERS):			
SKY CONDITIONS:	Cloudy		
PRECIPITATION:	10% chance of showers		
WINDS:	Southeasterly at 15 to 20 knots.
