

BAHMET 24/10C

BAHAMAS PUBLIC FORECAST

BAHAMAS PUBLIC FORECAST FOR TONIGHT, TOMORROW AND THE NEXT SIX (6) DAYS, ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 6:00 P.M. EDT, Thursday, August 28, 2025. THE NEXT SCHEDULED FORECAST WILL BE ISSUED AT 6:00 A.M. EDT TOMORROW.

WARNING IN EFFECT:	<i>A Heat Advisory remains in effect for the Bahamas between the hours of 10am – 5pm. Residents are urged to remain hydrated, limit time outdoors and avoid strenuous activity, as heat indices remain in the triple digits.</i>
GENERAL SITUATION:	<p>A meandering frontal boundary north of the Bahamas will continue to promote warm and humid conditions while generating showers and thunderstorms across the northern portions of the country. A weak ridging pattern will dominate weather conditions elsewhere.</p> <p><i>Outlook:</i> The frontal boundary north of the islands is expected to linger over the area into next week. Meanwhile, troughing along with increased tropical moisture across the islands will support showers and thunderstorms through the extended forecast period.</p>
SPECIAL WEATHER NOTES:	<p><i>Rip currents:</i> There is a slight risk of rip currents along Atlantic coastal beaches.</p> <p><i>UV Index:</i> The public is urged to wear protective clothing, such as wide-brimmed hats, sunglasses, and sunscreen, and to seek shaded areas during peak daylight hours due to UV levels in the high to extreme range.</p>

NORTHERN BAHAMAS (INCLUDING GRAND BAHAMA, ABACO, BIMINI & ADJACENT WATERS):
