

BAHMET 24/10C

BAHAMAS PUBLIC FORECAST

BAHAMAS PUBLIC FORECAST FOR TONIGHT, TOMORROW AND THE NEXT SIX (6) DAYS, ISSUED BY THE BAHAMAS DEPARTMENT OF METEOROLOGY AT 6:00 P.M. EST, Thursday, December 18, 2025. THE NEXT SCHEDULED FORECAST WILL BE ISSUED AT 6:00 A.M. EST TOMORROW.

WARNING IN EFFECT:	<i>There are no public warnings in effect at this time.</i>
GENERAL SITUATION:	<p>Troughing associated with an approaching cold front is anticipated to produce some shower activity across the country tonight through the overnight hours. Meanwhile, high pressure ridging continues to retract eastward.</p> <p>Outlook: High pressure across the area will slide further eastwards into the Atlantic allowing winds to relax some while promoting mostly stable and seasonably warm weather across the Bahamas. A weak cold front is anticipated to enter the Northern Bahamas early Saturday morning then eventually stall near the Central Bahamas on Sunday. Strong high pressure will build across the islands Monday promoting strong to near gale force winds through the first half of the week.</p>
SPECIAL WEATHER NOTES:	<p>Rip Currents: There remains a high risk of dangerous rip currents and rough surf along all Atlantic beaches. Beachgoers and swimmers are strongly advised to not enter these waters, and should exercise caution elsewhere.</p> <p>Coastal Threats: There remains a threat of some minor coastal flooding and beach erosion along Atlantic coastal areas.</p>

NORTHERN BAHAMAS (INCLUDING GRAND BAHAMA, ABACO, BIMINI & ADJACENT WATERS):
