NEWS ITEM

News Item on **Tropical Depression Edouard** issued by the Bahamas Department of Meteorology's Forecast Office section at 6:00 pm Wednesday 02th, September 2026.

...Tropical Depression Edouard will continue to pose a rainfall threat for East Texas through Thursday morning ...

At 5:00 pm EDT, the center of Tropical Depression Edouard was located near **Latitude 31.6° North** and **Longitude 95.2° West** or about 35 miles northwest of Lufkin Texas or about 100 miles northeast of College Station Texas.

Edouard is moving quickly toward the **north-northwest at 5 miles per hour**. This motion is expected to continue before Edouard dissipates on Thursday.

Maximum **sustained winds are near 25 miles per hour, with higher gusts**. A gradual weakening of winds is expected to continue tonight.

The Next news Item will be issued at 6:00 am
